Interchange Information

Nails used in the Campbell Hausfeld NC1545 Coil Roofing Nailer will also work in Bostitch N12B, Senco SCN200R, and Hitachi NV 45AB.

COLORMATCH™ system

Your Campbell Hausfeld Coil Roofing Nailer has a unique green COLORMATCH™ stripe. Look for the same green COLORMATCH™ stripe on Campbell Hausfeld nail boxes. Simply match the two color stripes to choose the right nails for your coil roofing nailer.

Nailer Repair

Repairs on the nailer **must** be performed by qualified and experienced service people **ONLY**.

Replacement Parts

 WARNING	Use only genuine Campbell Hausfeld replacement parts. Never substitute parts. Do not use modified parts or parts which will not give equivalent performance to the original equipment. When ordering replacement parts, specify by part number.
--	---

Assembly Procedure for Seals

When repairing a nailer, the internal parts must be cleaned and lubricated. Parker O-lube or equivalent must be used on all O-rings. Each O-ring must be coated with O-lube before assembling. A small amount of oil must be used on all moving surfaces and pivots. After reassembling, a few drops of Unocal RX22 oil or equivalent, must be added through the air line before testing.
